Course description	Funk is a musical style that emerged during the late 1960s and early '70s and is widely considered as one of the primary influences in the development of disco, rap, hip hop, fusion, and contemporary urban and R&B styles. In addition, funk techniques have been incorporated into jazz, mainstream rock, techno, Afro-Cuban and Latin musics, a variety of Worldbeat traditions, TV soundtracks (i.e., the music for <i>Seinfeld</i> ), teen-pop, and even adult contemporary, Christian pop and gospel, and children's programming.  But funk is more than just another musical language or genre. During the 1970s and '80s artists like George Clinton positioned funk as a communal religion, in which beat, rhythm, and message merged to provide a cosmic unity. Contemporary funk and rap musicians view the early history of the genre in almost Biblical terms, with artists like James Brown, Clinton, and Sly Stone assuming the role of funk lords and apostles.  Seen in this light, the borrowing of quotes from their songs as samples in new hip-hop recordings can be seen as acts of homage and devotion by disciples who have heard The

	<p>Word. As David Brackett writes in <i>The New Grove Dictionary of Music and Musicians</i>, “[Clinton] began to develop a cosmological narrative that proselytized the redemptive power of funk and has continued to influence numerous hip-hop musicians.” Thus, as a musical language whose roots are found in the very same Afro-American styles that are at the basis of popular music—blues, R&amp;B, gospel, and soul traditions—combined with its grandiose “theological” dimensions of influence, funk is deserving of serious study on both a global cultural level, as well as on the micro level of its musical techniques, artists, and songs themselves.</p> <p>This course will follow the trajectory of funk from its roots in rhythm and blues through its classic formulation in the 1970s and will conclude with a discussion of the urban transformation and revival of funk over the last two decades. We will place funk within its cultural and social milieu, as well as examining the evolving musical characteristics of funk in some detail.</p> <p>This course is intended for the general university student and neither assumes nor requires previous training in music.</p>
