Description

Survey of music in Canada from pre-European contact to the present, with an emphasis on the effect of geography and culture upon creation, performance, and reception.

Outcomes

Students will gain a broad understanding of the rich variety of musical activity that has occurred throughout the geographical region now called Canada including that of Indigenous peoples, the early French and British settlers, and later settlers from the Americas, Europe, Asia and Africa. Students will gain an understanding of the ways in which geographical features (landscape/soundscape) and cultural practices (spiritual beliefs, livelihood, community organization) have led to the creation and performance of a significant tradition of popular and refined music. Students will also gain an understanding of the effect of governmental, cultural and artistic institutions (education, presenting organizations, venues, funding agencies) upon the development of music in Canada. Students will gain an understanding of how colonialism has affected both Indigenous and settler musical expression and what decolonizing strategies might affect the music of the future.

Activities

Lectures, class discussions, listening tests, research papers, playlist creation

Learning Technologies and Requirements for this ONLINE course

There is a D2L site for this course which contains required readings and other relevant class resources and materials (see d2L.ucalgary.ca).

In order to successfully engage in their learning experiences at the University of Calgary, students taking online, remote and blended courses are required to have reliable access to the following technology:

- A computer with a supported operating system, as well as the latest security, and malware updates;
- A current and updated web browser;
- Webcam (built-in or external);
- Microphone and speaker (built-in or external) or headset with microphone;
- Current antivirus and/or firewall software enabled;
- Broadband internet connection.

Most current laptops will have a built-in webcam, speaker and microphone.

Listening

A complete understanding in any music course can only be accomplished through careful listening, giving complete attention to the sound. Music always becomes more familiar with repeated listening.

In addition to the technical requirements listed above, students should also download a copy of **Spotify** (free from: spotify.com > download). The instructor will create a playlist containing the pieces that are played in class as well as additional examples. The instructor will also provide an additional playlist for preparation for the Listening Tests.

Because the music will be streamed, students should listen to the music in class through a good headset or ear-buds rather than through the computer speakers. When listening to the Spotify playlists, students should use the laptop version rather than the smartphone version, because the latter behaves in an idiosyncratic manner.

Recordings

- **Course Spotify Playlist Music in Canada 2021** put the following URL in the Spotify search engine: `spotify:playlist:6yWs4KCEUC6zJlJn9mAp18`
- **Canadian Music Centre** <https://cmccanada.org> for archival recordings of performance of Canadian music (concert and jazz) on Centrestreams (select Music Library menu)
- **Smithsonian Folkways Recordings** <https://folkways.si.edu> for settler (folk and traditional) and early Indigenous music

Assessment

Listening tests (4 @ 10%) 40%

Projects (3@20%) 60%

Research papers (2@20%)

Annotated Repertoire List & Concert Program (20%)

The projects (research papers and the APR&CP) will be graded under the following conditions:

- Submitted early (prior to 4:00 pm on the day before the due date) - as marked **plus** half a grade point (eg. B to B+)
- Submitted on time (prior to 6:00 pm on the due date) - as marked
- Contact the instructor **in advance** of the deadline if there is a need for an extension, which will be granted for compellingly valid reasons (health, etc). Otherwise, the instructor will not grade a late project.

Listening Tests

One week in advance of each test, students will receive a Listening List with a URL to a Spotify playlist. In preparation for the test, students should listen to the music as many times as it takes to be able to identify the piece, the composer or performer (as appropriate), some musical features (instrument, tempo, etc, all of which will be discussed in class) and then provide some comments about the state of being that the piece evokes and about the context (historic, cultural) of the piece.

Projects

Both of the Research Papers will discuss a piece of music, a musician (composer, performer), an instrument or a performing group or organization (ensemble, concert society) through the critical lens of the two primary themes for the course (land & cultures) as well as any appropriate secondary themes introduced in the lectures. The appendices in the text are a good source for topics. The text itself introduces many people without providing substantial details, yet each may prove worthy of further exploration and criticism. Consult with the instructor if you are uncertain.

Pieces that are discussed in class or that appear on the Spotify playlists for the course may not be used in any of the projects. However, a different work by the same composer/performer would be completely acceptable.

The Research Papers will be three-pages (12 pt font, 1.5 spacing) of clear prose, with bibliographic references as an addendum. The Annotated Repertoire List & Concert Program will have as many pages as necessary to satisfy the requirements below.

Research Paper 1: Pre-contact to pre-Confederation (1866) – the paper will focus on one of the following – indigenous music, popular music (folk. Traditional), or refined music

Research Paper 2: Confederation (1867) to Centennial (1967) – the paper will focus on popular music or refined music chosen from Appendix J of the text

Annotated Repertoire List & Concert Program: Contemporary (1980 to the present)

- The Annotated Repertoire List will provide an extensive list of contemporary Canadian pieces for your own instrument. For each piece, you will provide: Composer's name, Title of the piece, Total instrumentation, Duration; you will also provide two sentences describing the character and the musical language of the piece as well as the degree of performance difficulty. The list will be organized according to the following categories:
 - Solo (with or without piano accompaniment) at least 10 pieces
 - Chamber (three or more players, uncondacted; for voice, this may include chamber choir; at least 10 pieces
 - Large ensemble (orchestra, wind orchestra, string orchestra); for voice this will be opera; limit of 5 pieces
- For the Concert Program, imagine that you have been hired as an Artistic Advisor to some concert presenting organization. Your assignment is to create a program entitled "Masterworks of Canadian Music". For this assignment, you will provide a concert program of solo (including piano accompaniment), chamber or orchestral repertoire (your choice) totaling approximately 75 minutes of contemporary (1980 to the present) Canadian music. You will put the pieces in concert order, with titles, composers' names and the durations of the pieces. On the same page you will provide a Spotify or CMC URL for the recordings of the pieces. You will then provide a one-page explanation of why the pieces are important and why they belong together on a concert program – what musically or thematically (extra-musical) connects them?
- For both parts of this project, your primary resource is the Canadian Music Centre website. You are advised to begin work early on this project.

All projects will be submitted as .pdf files (Surname_Title.pdf) to the Dropbox in the D2L for the course.

Clear prose is well-organized, so that the writer presents ideas in such a manner that the reader can easily follow the reasoning. Clear prose is free of typographical, orthographical, and grammatical errors.

Guidelines for Zoom Sessions

Zoom is a video conferencing program that will allow us to meet at specific times for a "live" video conference, so that we can have the opportunity to meet each other virtually and discuss relevant course topics as a learning community.

To help ensure Zoom sessions are private, do not share the Zoom link or password with others, or on any social media platforms. Zoom links and passwords are only intended for students registered in the course. Zoom recordings and materials presented in Zoom, including any teaching materials, must not be shared, distributed or published without the instructor's permission.

The use of video conferencing programs relies on participants to act ethically, honestly and with integrity; and in accordance with the principles of fairness, good faith, and respect (as per the [Code of Conduct](#)). When entering Zoom or other video conferencing sessions (such as MS Teams), you play a role in helping create an effective, safe and respectful learning environment. Please be mindful of how your behaviour in these sessions may affect others. Participants are required to use names officially associated with their UCID (legal or preferred names listed in the Student Centre) when engaging in these activities. Instructors/moderators can remove those whose names do not appear on class rosters. Non-compliance may be investigated under relevant University of Calgary conduct policies (e.g [Student Non-Academic Misconduct Policy](#)). If participants have difficulties complying with this requirement, they should email the instructor of the class explaining why, so the instructor may consider whether to grant an

exception, and on what terms. For more information on how to get the most out of your zoom sessions visit: <https://elearn.ucalgary.ca/guidelines-for-zoom/>.

If you are unable to attend a Zoom session, please contact your instructor to arrange an alternative activity for the missed session (e.g., to review a recorded session). Please be prepared, as best as you are able, to join class in a quiet space that will allow you to be fully present and engaged in Zoom sessions. Students will be advised by their instructor when they are expected to turn on their webcam (for group work, presentations, etc.).

The instructor may record online Zoom class sessions for the purposes of supporting student learning in this class – such as making the recording available for review of the session or for students who miss a session. Students will be advised before the instructor initiates a recording of a Zoom session. These recordings will be used to support student learning only and will not be shared or used for any other purpose.
